Subject: Operational Environmental Management Plan for Remondis Resource Recovery Facility
Tomago (Condition C5 of SSD-10447)

Dear Ms McCarthy

I refer to your submission dated 2 June 2022, requesting approval of the Operational Environmental Management Plan (OEMP) (called Integrated Management Plan). I also acknowledge your response to the Department’s review comments and requests for additional information.

I note the OEMP:

- Includes the relevant sub-plans - Energy from Waste Management Plan, Water Management Plan and Air Quality Management Plan;
- Was prepared in consultation with the EPA and Council, where required for the sub-plans; and
- Contains the information required by the conditions of approval.

As nominee of the Planning Secretary, I approve the Integrated Management Plan, Rev 00, prepared by Remondis, dated 2 June 2022 under Condition C5 and the following sub-plans:

- Energy from Waste Management Plan – Eligible Fuels, Rev 1, prepared by Remondis, dated 27 June 2022 (Condition B8)
- Water Management Plan, Rev 3, prepared by SMEC, dated 14 July 2022 (Condition B26)
- Air Quality Management Plan, Rev 0, prepared by The Odour Unit Pty Ltd, dated 14 June 2022 (Condition B36)

You are reminded that if there is any inconsistency between the approved documents and the conditions of approval, then the requirements of the conditions of approval prevail.

Please ensure you make the documents and this approval letter publicly available on the project website.

Please ensure that the approved plan is placed on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact Zoe Halpin on (02) 9995 6430.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'S. Laguna', with a small flourish at the end.
