

## Industrial Services

REMONDIS Tomago Resource Recovery Facility provides a range of industrial cleaning services, including services to grease traps and septic tanks. We also provide services to more complex drainage and sewer systems, and pipelines within heavy industries such as manufacturing plants, oil refineries and construction utilities.

REMONDIS are experts in providing safe and responsible industrial cleaning services – including drain, sewer, tank and pipe cleaning – for commercial and industrial businesses

### SuperVac fleet

Our state-of-the-art Cappellotto SuperVac fleet includes a range of vehicles to suit any sized tank and hard-to-access spaces, and handles wet and dry materials. The fleet is available for work in the Newcastle, Gosford, and Hunter Valley regions.

REMONDIS conducts fully certified industrial cleaning services for commercial and industrial businesses, in full compliance with regulatory requirements.

### Industry focused fleet and plant

These units are ideal for providing a range of industrial cleaning services including:

- Drain cleaning
- Pit cleaning
- Tank cleaning
- Hydro excavation
- High pressure jetting
- Hot washing
- Industrial vacuum
