

# Waste Declaration Form

## CUSTOMER DETAILS

Business name (legal entity):		Date:	
Registered business address:			
REMONDIS Customer Number (if known):		Business phone:	
Contact name:		Contact mobile:	
Contact email:			
Waste types (refer to Waste Codes below):			

## NOTES

- This form must be completed in full prior to being permitted to unload.
- Carefully read and understand this Waste Declaration Form before signing it.
- Do not provide any information that you know to be false or misleading, eg. incorrect classification, quantity or intended destination, or failure to disclose waste is hazardous.

## CUSTOMER WASTE DECLARATION

I declare that:

- the waste I am transporting, or intend to transport, is accurately described in all communications with REMONDIS Australia Pty Ltd, and classified in the Drivers Waste Log situated at REMONDIS Dandenong South Liquid Processing Plant;
- where I have passed the responsibility of this waste to a third-party transport company, I understand under the terms of this agreement, I can and will still be held fully responsible for the waste disposal.
- I have supplied all relevant information to the composition and safe handling of the Waste I am transporting or disposing;
- I have not added, removed, mixed, blended, diluted, or otherwise altered or tampered with the Waste in any way.

I understand that, under the Environment Protection Act 2017 (Vic) (Act):

- I have a general environmental duty to minimise the risks of harm to human health or the environment from pollution or waste, so far as reasonably practicable; and
- I have a duty to take all reasonable and practicable steps to ensure that the Waste is disposed of in a lawful way.
- Providing false or misleading information may result in the Waste being disposed of unlawfully;
- providing false or misleading information about the Waste may constitute an offence under the Act and this includes:
  - providing false or misleading information about the type, properties and classification of the Waste; or
  - providing false or misleading information about the risks to human health or the environment from the Waste; or
  - concealing information or documents about the type, properties and classification of the Waste; or
  - concealing information or documents about the risks to human health or the environment from the Waste; and
- if I fail to comply with the requirements imposed on me by the Act, I may be subject to enforcement action by the regulator and if found guilty of providing false or misleading information about the waste or Waste Sample, may be liable for a fine and/or imprisonment.

I also understand that REMONDIS may refuse to receive any subsequent Waste or adjust the disposal cost of the material if they believe that it is not reflective of the reasonable expectations of this waste type or as sampled.

## WASTE CODE DESCRIPTIONS

Waste Code	Description
B100	Acids in a solid form or acidic solutions with pH value 4 or less
C100	Alkaline solids or alkaline solutions with pH value of 10 or more, including caustic soda, alkaline cleaners and waste lime
F100	Aqueous-based wastes from the production, formulation and use of paints, lacquers, varnish, inks, dyes and pigments
F110	Aqueous-based wastes from the production, formulation and use of paints, lacquers, varnish, inks, dyes and pigments
F120	Solvent-based wastes from the production, formulation and use of paints, lacquers, varnish, inks, dyes and pigments
F130	Solvent-based wastes from the production, formulation and use of resins, latex, plasticisers, glues and adhesives
J100	Waste oils, hydrocarbons, emulsions, and transformer fluids excluding polychlorinated biphenyls
J120	Waste oil/water, hydrocarbons/water mixtures or emulsions
J130	Triple interceptor waste and stormwater contaminated with oil or hydrocarbon
J170	Used oil filters
K110	Grease trap waste
L100	Car and truck wash waters
L200-H	Industrial wastewater (excluding sewage) not otherwise specified in "Schedule 5—Waste Classification" of the Environment Protection Regulations 2021
L200-NH	Industrial wastewaters (excluding sewage) which meets conditions relating to wastewater reuse in a permission
M130	Non-halogenated, non-solvent organic chemicals, not otherwise specified in "Schedule 5—Waste Classification" of the Environment Protection Regulations 2021
M250	Surface active agents (surfactants), containing principally organic constituents and which may contain metals and inorganic materials
N100	Rigid steel or plastic containers with an original volume less than 200 litres contaminated with reportable priority waste (transport)
N105	Rigid steel or plastic containers with an original volume equal to or greater than 200 litres contaminated with reportable priority waste (transport)
N110	Bags or containers contaminated with reportable priority waste (transport) not covered by the description of waste for items 80 and 81 of "Schedule 5—Waste Classification" of the Environment Protection Regulations 2021
N140	Fire debris and fire wash-waters excluding anything covered under item 79 of "Schedule 5—Waste Classification" of the Environment Protection Regulations 2021
N205	Residues from industrial waste treatment/disposal operations, including digestate, bottom ash and char
N210	Residue from pollution control operations, including baghouse dust and activated carbon
N250	Absorbents contaminated with residues of hazardous substances
T130-H	Sludges or slurries, including drilling muds containing hazardous substances
T-130-NH	Sludges or slurries, including drilling muds other than item 102 of "Schedule 5—Waste Classification" of the Environment Protection Regulations 2021
T330	Leachate from waste treatment/disposal operations
