

Waste and recycling collection services

Our Resource Recovery Facility at Canning Vale provides waste management services to the wider Perth region. The facility contains a commercial-access Transfer Station, extensive resource recovery capabilities, including cardboard and paper baling, and a depot for logistics and industrial services vehicles.

We believe in effective waste management through customised solutions for our customers. We offer site-specific audits, personalised recycling education and training, complemented with accurate and informative environmental reporting systems.

Waste collection services

- Co-mingled recycling
- Paper and cardboard
- Organics (food and garden)
- General waste
- Industrial waste

Separating recyclables from general waste before it goes into the bin reduces the amount of waste that ends up in landfill.

Co-mingled recycling

Recyclables can be recovered and re-purposed in your co-mingled bin, like hard plastic, aluminium and glass

Paper and cardboard

Paper and cardboard are easily recycled into new packaging, cartons, tissues and newspapers

Organics recycling

We can recycle your organic waste into new products, including compost, mulch and fertiliser

General waste

Your general waste bin should only be used for non-recyclable materials

Waste and recycling collection services

About REMONDIS Australia

Established locally in 1982, REMONDIS Australia is part of one of the largest recycling, service and water companies in the world.

As a family-run company and a leader in the delivery of environmental solutions, REMONDIS Australia has over 1,100 employees and 560 vehicles operating from our advanced facilities across Australia.

As one of Australia's leading recycling and waste management companies, we leverage our local knowledge and global expertise to serve more than 24,000 industrial and commercial customers throughout the country.

By sharing our knowledge and expertise, diverting waste from landfills and supporting responsible waste management practices, we believe we can work together to bring the vision of a sustainable Australia closer to reality.

Bin sizes

Because no one size fits all, we offer a comprehensive range of lightweight, easy-to-move, lockable bins of varying capacity.

We can help you select size and collection frequency based on your waste types, storage space and vehicle access. For larger volumes, we can supply compactors from 6 to 30 cubic metres.

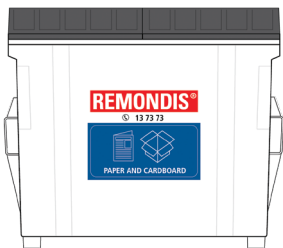

Plastic wheelie bins

240 litres

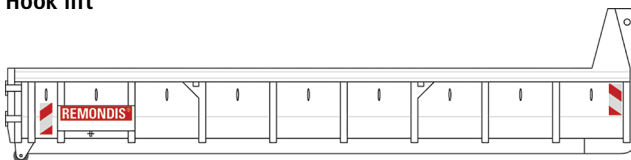

660 litres to 1100 litres

Steel bin

1.5m³ 3.0m³ 4.5m³

Hook lift

15m³ 25m³
