# REMONDIS Australia

Established locally in 1982, REMONDIS Australia is part of one of the largest recycling, service and water companies in the world

As a family-run company and a leader in the delivery of environmental solutions, REMONDIS Australia has over 800 employees and 600 vehicles operating from our advanced facilities across Australia. As one of Australia’s leading recycling and waste management companies, we leverage our local knowledge and global expertise to serve more than 15,000 industrial and commercial customers throughout the country.

By sharing our knowledge and expertise, diverting waste from landfills and supporting responsible waste management practices, we believe we can work together to bring the vision of a sustainable Australia closer to reality.

### Our commercial services

We provide a comprehensive range of waste collection, disposal and recycling services for businesses across Australia. Our fleet of collection vehicles are suited to different waste levels and access restrictions.

We also offer a range of different sizes and models of waste bins to meet your specific disposal needs, designed to be easy to move and store – with your choice of collection frequency.

**Value-add services**

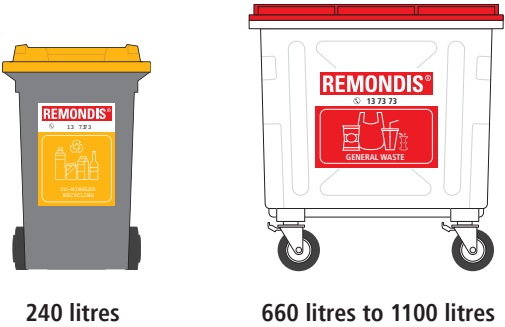

We are committed to building a sustainable Australia – where waste is seen as a resource. To achieve this, we support our customers and the wider community by delivering future-proof solutions to create a circular economy for all.

- Quarterly or bi-annual waste audits can point to alternative solutions to reduce your costs and increase sustainability practices
- We provide staff training, to maximise your waste disposal and recycling processes
- We offer state-of-the-art reporting, so you can measure and compare your recycling month by month
- On joining REMONDIS, we'll support you with a trained industry professional to assist you with any queries and provide expert ongoing advice

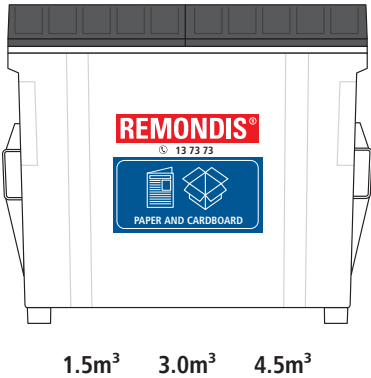

**Bin sizes**

Because no one size fits all, we offer a comprehensive range of lightweight, easy-to-move, lockable bins of varying capacity. We can help you select size and collection frequency based on your waste types, storage space and vehicle access. For larger volumes, we can supply compactors from 6 to 30 cubic metre capacity.
