

Press Release

Applications are now open for REMONDIS Australia's Graduate Program

Sydney, 6 February 2023, REMONDIS Australia – REMONDIS Australia is seeking seven recent university graduates for its two-year, salaried Graduate Program.

“We’re on the lookout for problem solvers and future leaders”, REMONDIS Australia CEO **Jochen Behr** said. “We’re looking forward to welcoming a new cohort of keen, enquiring minds into the business and nurturing their growth”.

This year REMONDIS Australia is recruiting seven recent university graduates, across six specialties:

- Finance – based in Sydney
- Mergers & Acquisitions – based in Sydney
- Engineering – based in Brisbane, Sydney or Perth
- Operations – based in Perth or Sydney
- Sales – based in Perth, Sydney, Melbourne, Adelaide or Brisbane
- Industrial Services / Hazardous Waste – based in NSW or Melbourne

The two-year salaried Graduate Program comprises four six-month rotations within a speciality area aligned with the graduate’s interests and skill, as part of a ‘learning by doing’ approach.

Graduates are embedded within the business from day one, so learning and growth arise with great mentors and a clear mission.

Paige Milligan, who gained a Bachelor of Business Administration from Macquarie University in 2020, entered the Graduate Program in 2020 – undertaking rotations in operations, customer service, mergers & acquisitions and on-site at a cutting-edge resource recovery facility – and has now accepted a permanent, full-time role as Project Manager within REMONDIS’s NSW operations.

“My rotations have all been diverse, providing opportunities to get hands-on experience while learning about day-to-day operational processes and equipment.

“The highlight of the Graduate Program for me has been the opportunity to work directly with the NSW/ACT General Manager, Susie McBurney. Being involved in projects and meetings with Susie has taught me so much about the industry and helped me to develop my skills,” Paige said.

Asked to describe the Graduate Program in three words, Paige said: “Engaging, diverse and enlightening.”

REMONDIS Australia is the local operation of one of the world’s biggest recycling, service and water companies. With over 1,100 employees and 39 business locations in Australia, REMONDIS serves more than

WORKING FOR THE FUTURE

24,000 commercial, industrial and municipal customers and their communities. REMONDIS is a respected global brand that has been in Australia since 1982.

Across Australia REMONDIS has major projects underway in organics, processing, resource recovery infrastructure and energy from waste, plus ambitious targets to improve operational performance and customer experience. The company is now looking for recent graduates with the curiosity, drive and resilience required to supercharge its ambitions.

The company is keen to hear from graduates with qualifications in Business & Management, Engineering & Mathematics, Humanities, Arts & Social Sciences and Sciences.

Applicants must have completed their tertiary studies in the 18 months prior to 30 June 2023 with a weighted average score of 70%, and must have the right to work in Australia.

Applications close 31 March, with the seven roles commencing 3 July 2023.

REMONDIS is one of the world's largest privately run recycling, service and water companies with around 1,000 business locations in over 30 countries and across four continents. Founded in 1934, this family-run business employs more than 40,000 people and generates a turnover of €11.5 billion (2021). Each year, it processes more than 30 million tonnes of recyclable materials and provides services for local authorities, small and medium-sized businesses and industrial firms as well as for around 30 million people. Operating in many different fields of business, REMONDIS makes an important contribution towards protecting the environment and conserving natural resources – from recovering valuable raw materials from industrial and household waste, to producing high quality recycled raw materials, all the way through to transforming non-recyclable materials into a range of different fuels. Moreover, the company is increasingly helping to advance the switch from fossil fuels to renewables by using biomass as a source of energy. REMONDIS sees itself as an adviser and point of contact for industrial, commercial and retail businesses as well as for local authorities as it helps them to find regional and bespoke solutions. REMONDIS Australia commenced operations in 1982 and now services more than 24,000 customers nationally.
